

IMRAN SHAIK

Computer Science and Engineering (AI & ML) | Full-Stack Developer

shaikimran0458@gmail.com | 9391680458 | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering (AI & ML) graduate with hands-on experience developing responsive and database-driven web applications. Proficient in JavaScript, React.js, Python, Node.js, Express.js, REST APIs, MySQL, MongoDB, HTML5, CSS3, and Tailwind CSS. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, and problem solving. Experienced in frontend development, API integration, database design, Git, and web application deployment. Seeking an entry-level Software Developer, Full-Stack Developer, or Frontend Developer role.

EDUCATION

Vasireddy Venkatadri Institute of Technology (VVIT)	Nambur, India
B.Tech in Computer Science and Engineering (Artificial Intelligence and Machine Learning)	2022–2026
CGPA: 7.06/10	

Narayana Junior College	Ongole, India
Intermediate	2020–2022 57%

Apex High School	Ongole, India
Secondary School Certificate (SSC)	2019–2020 97%

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frontend Development: HTML5, CSS3, React.js, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB, SQLite

Tools & Technologies: Git, GitHub, Visual Studio Code, Postman, Vite, Vercel

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Problem Solving

PROJECTS

AI-Based Gamified Learning Platform with Hierarchical Monitoring	<i>React.js, JavaScript, Python, Django, AI, MySQL, SQLite, AWS</i>
---	---

- Developed responsive frontend interfaces for student, teacher, and administrator workflows using React.js, HTML5, CSS3, and JavaScript.
- Implemented quizzes, points, badges, leaderboards, courses, and student progress tracking to support gamified learning.
- Developed dashboards for a three-level hierarchical monitoring system to visualize student performance and learning progress.
- Integrated frontend components with backend functionality for progress tracking, analytics, rewards, and course management.
- Collaborated with a 4-member team for 5 months to develop and test an AI-enabled educational platform.
- Role:** Contributed to frontend development, responsive UI design, reusable components, and frontend-backend integration.

3DPrintHub - Custom 3D Printing E-Commerce Platform	<i>MongoDB, Express.js, React.js, Node.js</i>
--	---

- Developing a MERN-based e-commerce platform for customizable 3D-printed toys, home products, organizers, tools, and models.
- Building product browsing, customization, shopping cart, checkout, and order tracking workflows.
- Developing reusable React.js components and responsive interfaces for desktop and mobile users.
- Building RESTful APIs using Node.js and Express.js and designing MongoDB collections for users, products, orders, and custom requests.
- Connecting frontend interfaces, backend APIs, and database operations to create an end-to-end e-commerce workflow.

Personal Portfolio Website	<i>React.js, Vite, Tailwind CSS, JavaScript, Framer Motion, Vercel</i>
-----------------------------------	--

- Developed a responsive personal portfolio using React.js, Vite, Tailwind CSS, and JavaScript to showcase projects, skills, education, and certifications.
- Implemented reusable UI components, interactive sections, responsive layouts, animations, and navigation using React.js and Framer Motion.
- Used Git and GitHub for version control and deployed the production website using Vercel.
- Optimized the interface for desktop and mobile devices with responsive design principles.

ACHIEVEMENTS

Bharatiya Antariksh Hackathon 2025

- Received a Certificate of Acknowledgement for submitting an innovative project idea focused on real-world space technology applications.

CERTIFICATIONS

- Full Stack Development Trainee – Infosys
- Google Cloud Generative AI Certification
- 10-Week Generative AI Internship – Google Cloud
